A hearing was held by Hon. H. H. Wheeler, Chancellor, in Chambers, on Wednesday afternoon, on a motion to dissolve the injunction, granted on the application of John B. Page and others vs. S. M. Waite and Railroad Company, to restrain them from holding the annual election for directors of Daniel Roberts of Burlington, and Charles N. Davenport of Brattleboro, appearing for the orators, and Edward J. Phelps of Burlington for the defendants.

The statement of the case is as follows: The by-laws of the corporation provide that the annual meeting for the election of directors shall be holden in the month of June in each year unless otherwise provided. The present board of directors voted to postpone the election until December next. A portion of the stockholders made application to Mr Morris, the president, to call a meeting of the corporation for the election of directors. He accordingly called a meeting at Bellows Falls, on the 27th of June. Previous to the meeting, on the petition of John B. Page and other directors, Chancellor Wheeler issued an injunction restraining the stockholders from

an election. The stockholders on assembling on the 27th, were called to order by Mr. Burrill of New York, when Hon. Frederick Billings of Woodstock was elected chairman. F. A. Nash of Brattleboro, secretary. A letter was read from the President, stating his inability to be present on account of illness. Col. Silas M. Waite, of Brattleboro, was appointed a committee to make an answer to the bill in Chancery. The meeting then adjourned until Monday, July 21st, at Bellows Falls.

The hearing on Tuesday was for a post ponement of the hearing on the motion to dissolve the injunction. Mr. Roberts presented the reasons on the part of the orators for asking a continuance. Among others was the absence of Governor Page, a party largely in interest, and the fact that the counsel of the orators had not sufficient time to examine the answer on the part of

the defendants. The merits of the case

were more or less alluded to in arguing the

Mr. Phelps replied in behalf of the dethe case and that the old Board of Directthe stockholders from proceeding to an election on Monday next. His clients represented a majority of the stock, holding 12,900 out of 20,000 shares. The by-laws of the corporations provided that the election should be held in June, but in April the present Board of Directors voted to postpone it until December. A majority of the stockholders applied to Mr. Morris, the President, to call a meeting for the election. He called a meeting of the Directors to consult on the subject, but they refused to convene. He then sent a circular asking their assent to calling a meeting, which was not responded to. He then called a meeting of the stockholders for an election at Bellows Fails, on the 27th of June, which, in consequence of the injunction served upon one of their number, was adjourned to the 21st of July. A postponement was first asked on account of the absence of Judge Prout. Now because he has not had time to examine the papers, in the absence of Governor Page in Europe : also that the Directors of the Connecticut River Railroad desired to break the extension of the lease, also that the call was not legal. In this manner a postponement of the election could be made almost indefinitely. The by-law of the corporation should have a reasonable. equitable construction, and not subject the stockholders to delay. The hearing should not be postponed to await the return of

Mr. Davenport replied that the application for continuance was made in good faith. The statement that an application had been made to Judge Barrett for this ininnetion and denied, was a misapprehension on the part of the defendant's counsel. The question was whether the defendant's have had time under the rules of the Court of Chancery for a proper examination of the proposition in the case. Time should be allowed to compare the answer with the Ever

bill and be ready to meet the case. Mr. Phelps said that the holders of the ommon and preferred stock of the Rutland railroad had endeavored to effect the extension of the lease made to Messrs. Burchard and Page which expires in 1875, for twenty years more. If an election of directors should take place it did not effect that question, necessarily.

Judge Prout said that there had been no fraud on the part of the present board of directors. One of the reasons for the postponement of the election until December was the fact that Mr. Morris would be absent in June and he made no objection to the change. Mr. Morris acted at that time in good faith and he had also committed mself to it by joining in a petition to the Court of Chancery in Windham county for opening a decree in reference to the lease. If anybody is now to be charged with bad faith it was Mr. Morris in calling a meeting of the stockholders under the circumstances. Gov. Page had a large interest in this question and had a right to be heard. He is charged with dishonesty in this matter and yet he had no knowledge of this meeting until informed by a telegram in Europe. His counsel and all parties are entitled to his construction of the matter. No one can interfere with the lease, either the old or a new board, therefore no one can suffer by a delay. It only makes unpleasant relations between the old and a signed the Presidency of Middlebury Col- new board of directors if one should be elected. The answer should be filed Chicago, is spoken of as his successor, if that the counsel may have an opportunity

to examine it and make a reply. Judge Wheeler said that the orators should have under the rules of the Court the bill and answer; He did not think it necessary to await the return of Gov. Page from Europe, for the purpose of this hearing. Judge Wheeler suggested that he would hear the motion to dissolve this injunction on Thursday (to-day) at 9 o'clock a. m., at the Rutland County Court House,

well known in Rutland and vicinity, and William Edwards, the two parties arrested for breaking and entering the house of F. E. Allen last Friday night, were brought before Police Justice Farrar on Tuesday morning, at Keene, N. H. Briggs admitted breaking into the Episcopal Church and stealing a small sum of money, and was sent to jail for three months. Edward's case was continued until next Saturday. Mr. Allen places his loss at \$1000.
